### NOTES:

- For ultimate lives and/or inspection requirements, refer to Aircraft Airworthiness Data and to the appropriate Liebherr and Embraer S.A. Service Bulletin.
- It is the Operator's responsibility to ensure these records are fully and accurately maintained.
- Lives of primary members shall be maintained. Failure to comply may result in premature scrap.
- Should a primary member be removed from the unit it must be suitably tagged to indicate consumed life.
- If the Part No. is changed a new Log Card must be completed, transferring relevant information from the previous Card.
- The Log Card was created refer to client's provided documents.

### Standard Terms & Conditions:

- Please ensure that the Repair Order is read carefully as failure to comply with the requirements will result in the Supplier being responsible for any charges incurred for the return of the goods to the Suppliers premises.
- All goods purchased through this Repair Order are subject to a quality inspection to be carried out by C&L Aerospace
- C&L Aerospace reserves the right to return any goods that do not meet the requirements of the purchase order or are faulty in any way up to 30 days after receipt of consignment.
- This repair order is only valid when accompanied by an authorised signature.
- For Exchange transactions, the Seller agrees to, when applicable:
  - A part known to have been subjected to conditions of extreme stress, heat, or environment are so identified.
  - All Airworthiness Directives (AD's) that are represented as having been accomplished are documented.
  - Items identified as OH, Repaired, Inspected, or Modified have the appropriate signed and dated documentation attached

# W106405

**Subject: Non Accident / Incident Statement**

**Date: May 10<sup>th</sup>, 2017**

To whom it may concern:

**Model: ERJ190**

**Aircraft Serial Number: 259**

**Aircraft Registration: N982TA**

**Manufacturer: EMBRAER**

**Total Time: 20037.40**

**Total Cycles: 12381**

This is to confirm that, the above referenced Aircraft and its associated components were operated by TACA since 30 March 2009 up to re-delivery to Nordic Aviation Capital. During that period of time, the above referenced equipment has not been involved in any accident (according to I. C. A. O. Annex 13 Paragraph B) or serious incident (according to I. C. A. O. Annex 13 Chapter 1).

This Aircraft has not been involved in any Major failure or fire, extreme stress or neither over-temperature outside of normal operation nor any part fitted was obtained from any government or military source and they were not immersed in salt water during its operation with TACA Group.

**USER / INSTALLER RESPONSIBILITIES**

1. It is important to understand that the existence of the document alone does not automatically constitute authority to install the part/component/assembly.  
 2) Where the user/installer works in accordance with the national regulations of an Airworthiness Authority different than the Airworthiness Authority of the country specified in block 1, it is essential that the user/installer ensures that his/her Airworthiness Authority accepts parts/components/assemblies from the Airworthiness Authority of the country specified in block 1.  
 3) Statements 13a and 14a do not constitute installation certification. In all cases, aircraft maintenance record must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.

A FORM 1 - Issue 2  
R/INSTALLER RESPONSIBILITIES

This certificate does not automatically constitute authority to install.

Where the user/installer performs work in accordance with regulations of an airworthiness authority different from the airworthiness authority specified in block 1, it is essential that the user/installer ensures that  
his/her airworthiness authority accepts items from the airworthiness authority specified in block 1.Statements in block(s) 13a and 14a do not constitute installation certification. In all cases aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by  
the user/installer before the aircraft may be flown.
